OneClick Funded Terms of Service

Last updated: August 29, 2026

These Terms of Service ("Terms") govern your access to and use of the website at https://oneclickfunded.com/, dashboards, portals, support channels, payment flows, instant account products, MT5, TradeLocker and Bybit-compatible trading-platform access, analytics, performance review, payout or reward processes, and related digital services made available under the OneClick Funded brand ("OneClick Funded", "we", "us", "our").

By creating an account, purchasing an instant account product, accessing a dashboard, receiving trading-platform credentials, requesting a payout or reward, or using any part of the Services, you confirm that you have read, understood and agreed to these Terms, the Privacy Policy, and any product-specific rules displayed on the website, checkout page, dashboard, trading-platform environment, FAQ, support channel or account schedule.

If you do not agree, do not register, purchase, access or use the Services.

1. What OneClick Funded Provides

OneClick Funded provides digital trader-development, data-analysis, education, evaluation, performance-assessment and support services. The Services may include:

1. access to the OneClick Funded website, dashboard or user portal;
2. instant account products with predefined virtual account sizes, risk limits, account parameters and payout/reward rules;
3. account-size options displayed as 25,000, 50,000, 100,000 and 200,000 USD-equivalent notional account sizes, unless updated for future purchases;
4. access credentials or instructions for MT5, TradeLocker and Bybit-compatible demo, simulated or platform environments;
5. analytics, performance metrics, reports, dashboards, rule-monitoring tools and trading history review;
6. educational materials, general trading education, risk-management content and product explanations;
7. customer support and service communications;
8. eligibility review for contractual performance-based rewards where such rewards are offered under the applicable rules.

The Services are designed for skill development, evaluation, education, analytics and performance assessment. They do not create a brokerage, banking, investment advisory, fiduciary, custody, managed-account, payment-account or client live-trading relationship between you and OneClick Funded.

2. Instant Account Model

OneClick Funded products are instant account products. They are not traditional multi-phase evaluation challenges unless a product-specific page expressly states otherwise. There is no profit target to unlock the account access unless the applicable product page or dashboard states a specific requirement for a future product.

An instant account gives you access to the relevant dashboard and trading-platform environment after purchase, subject to payment confirmation, risk checks, technical availability, account setup, restricted-jurisdiction controls, fraud controls and these Terms.

Product-specific pages, checkout screens, dashboard notices or support confirmations may set the applicable account size, platform, price, risk parameters, permitted instruments, minimum trading days, consistency rules, payout period, profit-share percentage, maximum loss limits, daily loss limits, maximum risk limits, inactivity rules, scaling rules, available payout methods and other operational parameters.

Where the website describes rules as fixed for the life of an account, the commercial parameters for that purchased account will normally remain fixed. OneClick Funded may still apply changes, corrections or restrictions where required by applicable law, sanctions, AML/CFT obligations, payment-provider requirements, platform-provider changes, critical security issues, fraud prevention, platform integrity, technical impossibility or manifest error.

3. No Financial Services, No Brokerage, No Client Deposits

OneClick Funded is not a broker, dealer, exchange, bank, payment institution, custodian, investment adviser, portfolio manager, asset manager, fund manager, fiduciary, trading venue or regulated financial institution.

The Services are not a financial product, investment service, brokerage service, banking service, payment service, custody service, managed investment scheme, collective investment vehicle, securities offering, derivatives offering, crypto-asset service, exchange service or any other regulated financial activity, unless expressly stated in writing by OneClick Funded and permitted by applicable law.

OneClick Funded does not:

1. accept, hold, safeguard, invest, transmit or manage client deposits or client money;
2. open live brokerage accounts for clients;
3. route client orders to live markets on behalf of clients;
4. execute trades in financial instruments, securities, derivatives, foreign exchange, commodities, crypto-assets or any other assets on behalf of clients;
5. provide personal investment, financial, legal, tax or accounting advice;
6. guarantee any profit, payout, reward, account progression, account continuation, scaling or future opportunity.

Any information, market commentary, educational content, examples, analytics or support communication provided through the Services is general in nature and must not be treated as investment advice, financial advice, trading instruction or a recommendation to buy, sell, hold or trade any asset.

You are solely responsible for obtaining advice from properly licensed professionals before engaging in any trading, investment, tax or legal activity outside the Services.

4. Instant Account Fee Is a Service Fee, Not a Deposit

The fee paid for an instant account, reset, add-on, subscription, refresh, upgrade or other digital service ("Instant Account Fee") is a fixed service fee paid for access to OneClick Funded digital services, account setup, dashboard access, analytics, support tools, educational content and/or trading-platform environment credentials.

The Instant Account Fee is not:

1. a deposit;
2. an investment;
3. a trading balance;
4. margin, collateral or security;

5. client money;
6. a contribution to any live trading account;
7. a payment held on your behalf;
8. a payment that gives you ownership of any account, capital, asset, virtual balance, simulated profit, trading result or reward.

Prices, discounts, coupons, add-ons, account sizes and product availability are shown before purchase or in the dashboard. Taxes, network fees, conversion fees, payment-provider charges and third-party costs may apply and may not be controlled by OneClick Funded.

5. Demo, Simulated and Third-Party Platform Environments

Trading activity in the Services takes place in a demo, simulated, notional or platform environment made available through OneClick Funded and/or independent third-party platforms, including MT5, TradeLocker and Bybit-compatible environments where available. OneClick Funded does not operate its own live trading venue for clients.

Orders placed in the Services are simulated or otherwise used for evaluation and performance measurement and are not routed by OneClick Funded to an exchange, broker, liquidity provider or live market on your behalf. Any account size, balance, equity, profit, loss, drawdown, limit, target, ranking or performance metric shown in the Services is virtual/notional and used only to calculate product rules, performance metrics and reward eligibility.

Market data, prices, spreads, commissions, swaps, symbols, execution logic, slippage, latency, server time, platform rules, order types and platform availability may depend on third-party providers and may differ from live market conditions.

You acknowledge that:

1. activity in the Services is not client live trading by OneClick Funded on your behalf;
2. displayed funds, balances, account sizes and profits are virtual/notional unless a separate written agreement expressly states otherwise;
3. virtual funds cannot be deposited, withdrawn, transferred, pledged, owned or used outside the Services;
4. simulated or platform results do not guarantee equivalent results in live markets;
5. third-party platform terms, policies and technical limitations may apply;
6. OneClick Funded is not responsible for third-party platform outages, data-feed interruptions, execution logic, symbol availability, access issues, provider changes or blockchain/network issues, except where mandatory law provides otherwise.

6. Payouts, Profit Share and Performance Rewards

OneClick Funded may use words such as "instant funded account", "funded", "firm capital", "payout", "withdraw", "profit share" or similar commercial language in the website, dashboard, FAQ, support channels or marketing materials. For legal purposes, these terms refer to an instant account product, a demo/simulated or platform account stage, and/or a formula for calculating a contractual performance-based reward ("Performance Reward") based on eligible account performance and compliance with the applicable rules.

A Performance Reward is paid from OneClick Funded's own funds. It is not:

1. a withdrawal of client funds;
2. a withdrawal of a deposit;
3. trading profit from live market activity performed for you;

4. an investment return;
5. interest, dividend, asset redemption or securities distribution;
6. profit distribution from an investment product;
7. money held in custody for you.

To become eligible for a Performance Reward, you must satisfy all applicable requirements, including without limitation:

1. meeting the product-specific payout requirements shown on the website, checkout page, dashboard, FAQ or account schedule;
2. completing any required minimum trading days, consistency requirements, risk controls and payout-period requirements;
3. complying with all trading rules, platform-integrity rules, account-use rules and prohibited-practice rules;
4. submitting a valid payout or reward request through the approved process;
5. providing accurate payout information, including bank, wallet or payment details where applicable;
6. completing KYC, identity verification, sanctions screening, AML/CFT checks, fraud review, video verification, verification call or due-diligence checks when requested;
7. not being located in, resident in, incorporated in, controlled from or otherwise connected to a restricted or sanctioned jurisdiction;
8. signing any additional reward, contractor, data-licensing, platform or program agreement required for the relevant payout process, if requested.

Before final approval and payment, you have no unconditional, vested or automatic right to a Performance Reward. OneClick Funded may delay, adjust, decline or cancel a Performance Reward where it reasonably believes, based on documented review, that the result was affected by rule breach, prohibited trading practice, platform abuse, collusion, account sharing, identity misrepresentation, payment fraud, chargeback abuse, sanctions risk, KYC failure, technical error, data error, manifest error, unlawful conduct or conduct inconsistent with the purpose and integrity of the program.

Where practical and lawful, OneClick Funded will provide a reason or review path for a declined or adjusted reward request. This does not require disclosure of confidential fraud controls, platform-integrity methods, risk models, provider information or security procedures.

7. Applicable Rules

The rules, product parameters and operational explanations published on the website, checkout page, dashboard, FAQ, trading-platform environment, account schedule, support channel or other official OneClick Funded channel form part of these Terms to the extent they apply to your selected instant account product.

This may include rules on:

1. account size and platform selection;
2. maximum overall loss, daily loss or drawdown limits;
3. maximum risk per trade or position;
4. minimum trading days or payout periods;
5. consistency rules;
6. inactivity rules;

7. permitted instruments, order types, leverage, fees and commissions;
8. account credentials and independent trading;
9. automated tools, EAs, APIs, trade copiers and signals;
10. prohibited strategies and platform abuse;
11. payout request requirements and available payout methods.

If product-specific rules conflict with these Terms, the more specific rule applies to the specific account or payout process, unless it conflicts with mandatory law or the legal nature of the Services described in these Terms.

8. Eligibility and Restricted Access

To use the Services, you represent and warrant that:

1. you are at least 18 years old and have legal capacity to enter into these Terms;
2. you are using the Services only where lawful for you to do so;
3. you are not subject to sanctions, export restrictions or other legal restrictions that prohibit your use of the Services;
4. you are not using the Services for fraud, money laundering, terrorist financing, sanctions evasion, identity abuse, market manipulation or any unlawful purpose;
5. all information you provide is accurate, complete and up to date;
6. if you use the Services on behalf of an organization, you have authority to bind that organization.

The Services are not available where prohibited by applicable law, sanctions, payment restrictions, trading-platform restrictions or where providing the Services would require authorization that OneClick Funded does not hold. OneClick Funded may refuse, restrict, suspend or terminate access for users, countries, regions, payment methods or platform environments for legal, compliance, payment, security, fraud-prevention, provider or platform-integrity reasons.

Availability of the website or dashboard in a country does not mean the Services are lawful for every person in that country. You remain responsible for your own legal compliance.

9. Payments, Crypto and Transaction Verification

OneClick Funded may accept payments through payment providers, cards, bank transfers, cryptocurrency, stablecoins, wallets, blockchain networks or other methods shown at checkout or in payment instructions.

You are responsible for using the correct payment method, currency, asset, network, wallet address, memo/tag if required, amount and transaction details. Blockchain transactions are generally irreversible. Network fees, gas fees, miner fees, exchange fees, conversion costs, bank fees, card fees and third-party charges are not controlled by OneClick Funded and are non-refundable unless mandatory law requires otherwise.

A payment is considered received only when OneClick Funded or its payment provider can reasonably confirm the transaction on the relevant payment system, bank network, card network or blockchain. Underpayments, overpayments, wrong-network transfers, transfers to the wrong address, missing memos/tags, delayed confirmations, chargebacks, reversals or compliance holds may require manual review and may not be recoverable.

OneClick Funded may request evidence of payment ownership, wallet ownership, source of funds, transaction details or identity before delivering access, processing refunds or approving Performance Rewards.

Payment acceptance does not mean OneClick Funded provides a crypto-asset service, wallet service, custody service, exchange service, investment service or payment account. Instant Account Fees remain fixed service fees and are not deposits or client money.

10. Refunds and Chargebacks

Except where mandatory law requires otherwise, Instant Account Fees are non-refundable once account access, dashboard access, platform credentials, account setup, digital content or any other digital service component has been delivered or made available.

Refunds may be considered where OneClick Funded confirms:

1. a duplicate payment for the same order;
2. payment was received but access was not delivered and OneClick Funded cannot reasonably fix delivery;
3. a material service-delivery error caused by OneClick Funded and not by you, your device, your internet connection, your location, your payment provider, your wallet, a blockchain network, a bank, a card network or a third-party platform;
4. a written goodwill exception approved through an official OneClick Funded channel.

No refund is due because of trading losses, failed account performance, missed payout requirements, drawdown or risk-limit breaches, inactivity, prohibited trading practices, verification failure, KYC/sanctions failure, wrong product selection, wrong platform selection, wrong payment network, blockchain fees, account suspension, reward denial or termination caused by a breach of these Terms or applicable rules.

Before initiating a chargeback, payment dispute or public complaint, you agree to contact OneClick Funded support through an official channel and allow a reasonable opportunity to investigate. Improper or fraudulent chargebacks may result in account suspension, termination, cancellation of rewards, restriction of future purchases and recovery of chargeback costs, subject to applicable law.

11. Account Security and Independent Use

Your OneClick Funded account, dashboard, instant account, trading-platform credentials and payout profile are personal to you unless OneClick Funded agrees otherwise in writing. You must not sell, rent, transfer, share, sublicense or allow another person to use them.

You are responsible for maintaining the confidentiality of your login credentials, email account, devices, wallet details and platform credentials. Notify OneClick Funded immediately if you suspect unauthorized access.

Changing trading-account credentials without authorization, using another person's identity, using unauthorized payment details, sharing access, using nominees or allowing another person or service to trade for you may result in account suspension, termination and reward denial.

12. Prohibited Conduct and Trading Practices

You must not:

1. use the Services unlawfully or in violation of these Terms or applicable rules;
2. interfere with, overload, scrape, reverse engineer, bypass, exploit or attack the Services;
3. use bots, scripts, automation, APIs, EAs, trade copiers, signal services or third-party tools in a way that violates the applicable rules or platform-integrity requirements;
4. exploit latency, price-feed delays, platform bugs, execution errors, stale quotes, data mismatches, liquidity artifacts or other technical vulnerabilities;
5. coordinate with other users to manipulate account outcomes or payout eligibility;

6. hedge, reverse trade or mirror risk across accounts, firms, identities or platforms to engineer guaranteed or near-guaranteed outcomes;
7. use copy trading, account management, signal mirroring or third-party trading services where prohibited;
8. submit false documents, false identity information, false payment information or misleading payout details;
9. use VPNs, VPSs, devices, wallets, payment methods or identities to bypass country, account, sanctions, fraud or platform restrictions;
10. initiate improper chargebacks or payment disputes for validly authorized transactions;
11. misuse OneClick Funded trademarks, content, data, systems, dashboards, marketing materials or affiliate tools;
12. engage in any conduct that OneClick Funded reasonably determines, based on objective indicators, is inconsistent with the integrity, purpose or fair operation of the Services.

Anti-abuse rules may cover new schemes equivalent to named prohibited practices. They must not be used to retroactively ban ordinary good-faith profitable trading solely because the trading was profitable.

OneClick Funded may review activity manually or automatically and may consider trading data, platform logs, devices, IP addresses, wallet/payment details, account links, timing, symbols, exposure, correlated accounts, communications and other evidence.

13. Suspension, Review and Termination

OneClick Funded may review, suspend, restrict, reset, revoke or terminate access to any account, instant account, dashboard feature, platform credential, payout request, reward request or service where it reasonably believes this is necessary to protect the Services, users, payment integrity, platform integrity, legal compliance or the purpose of the program.

Grounds may include:

1. breach of these Terms or applicable rules;
2. prohibited trading practice or platform abuse;
3. suspected fraud, collusion, manipulation, identity abuse, sanctions evasion or payment abuse;
4. KYC, AML/CFT, sanctions, verification or due-diligence failure;
5. third-party platform limitation, outage, termination or material change;
6. legal, regulatory, security, operational or risk-management reasons;
7. failure to cooperate with an investigation or verification request.

Suspension during review does not entitle you to compensation. If OneClick Funded confirms a material breach, it may cancel affected accounts, remove simulated results, deny rewards, close accounts and refuse future service, subject to mandatory law.

14. Manifest Errors and Technical Corrections

A manifest error is an obvious or material technical, calculation, software, platform, data-feed, display, execution, payment, dashboard, pricing or administrative error. A manifest error does not create entitlement to erroneous balances, status, payout amounts, pass/fail results, account continuation, discounts or rewards.

OneClick Funded may correct, recalculate, reverse or adjust affected data, account status, rule calculations, payout eligibility or transactions where a manifest error is identified, subject to mandatory law and documented review.

15. Third-Party Services

The Services may integrate with or link to third-party trading platforms, MT5, TradeLocker or Bybit-compatible environments, blockchain networks, wallets, payment tools, payment processors, identity verification providers, analytics providers, hosting providers, support tools, communication tools or other third parties.

Third-party services are governed by their own terms and policies. OneClick Funded is not responsible for third-party services, content, data, uptime, security, pricing, settlement, blockchain confirmation times, identity verification outcomes, platform behavior or technical performance, except where mandatory law provides otherwise.

16. Intellectual Property and Data Use

OneClick Funded and its licensors own all rights in the Services, including software, dashboards, databases, analytics, reports, designs, trademarks, logos, content, educational materials, evaluation methodology, performance metrics, ranking systems, algorithms, processes and documentation.

You receive only a limited, revocable, non-exclusive, non-transferable license to use the Services for your personal evaluation and educational purposes in accordance with these Terms.

You must not copy, resell, sublicense, reverse engineer, decompile, scrape, replicate, publish, distribute, create derivative works from or commercially exploit any part of the Services without written consent.

You grant OneClick Funded a worldwide, royalty-free license to process, analyze, store, reproduce and use your account data, platform activity, performance data, communications and feedback to provide the Services, improve products, detect fraud, enforce rules, calculate rewards, comply with law and create aggregated or anonymized analytics. Personal data is handled in accordance with the Privacy Policy.

17. Marketing, Testimonials and Performance Examples

Any testimonials, payout examples, certificates, leaderboard results, account results, trading outcomes, average payout figures, processing-time statements or educational examples shown by OneClick Funded are illustrative and may not represent typical results. Past performance, simulated performance, historical performance or another user's result does not guarantee future performance, reward eligibility or any specific outcome for you.

You must not publish false, misleading or deceptive statements about OneClick Funded, the Services, rewards, account outcomes, platform mechanics, account sizes or your relationship with OneClick Funded.

Nothing in these Terms prevents truthful reviews, good-faith opinions, lawful complaints, reports to competent authorities or legal claims. OneClick Funded reserves its rights regarding knowingly false statements, fabricated evidence, unlawful defamation, extortion, harassment, impersonation, confidential-data leaks or fraud.

18. Disclaimer of Warranties

The Services are provided on an "as is" and "as available" basis. To the fullest extent permitted by law, OneClick Funded disclaims all warranties, whether express, implied, statutory or otherwise, including warranties of merchantability, fitness for a particular purpose, title, non-infringement, accuracy, availability, uninterrupted operation, error-free operation and security.

OneClick Funded does not warrant that:

1. the Services will be uninterrupted, error-free, secure or available at all times;
2. the platform environment will exactly match live market conditions;

3. market data, spreads, prices, execution logic or platform behavior will be accurate or complete;
4. you will receive any payout or reward or achieve any performance result;
5. any third-party platform, payment method, crypto network or provider will remain available.

19. Limitation of Liability

To the fullest extent permitted by law, OneClick Funded, its affiliates, personnel, contractors, agents, licensors and service providers will not be liable for any indirect, incidental, special, consequential, exemplary or punitive damages, loss of profits, loss of opportunity, loss of expected rewards, loss of data, business interruption, reputational harm, trading losses, investment losses, market losses, platform downtime, blockchain/network issues, third-party service failure or simulated performance loss.

To the fullest extent permitted by law, OneClick Funded's total aggregate liability arising out of or relating to the Services will not exceed the amount you paid to OneClick Funded for the specific Service giving rise to the claim during the three months before the event giving rise to liability.

Nothing in these Terms excludes liability that cannot be excluded under applicable law.

20. Indemnity

You agree to defend, indemnify and hold harmless OneClick Funded, its affiliates, personnel, contractors, agents, licensors and service providers from and against claims, losses, damages, liabilities, penalties, costs and expenses, including reasonable legal fees, arising out of or related to:

1. your breach of these Terms or applicable rules;
2. your misuse of the Services;
3. your fraud, manipulation, prohibited trading practice or unlawful conduct;
4. your violation of any law or third-party right;
5. your documents, data, communications, payment details or wallet information;
6. any chargeback, payment dispute or payment reversal caused by your breach or improper conduct.

21. Changes to Services and Terms

OneClick Funded may modify, suspend, replace, discontinue, recalibrate or update any part of the Services, including account parameters, dashboards, analytics, account sizes, platform access, symbols, platform providers, payout schedules, pricing, promotions, technical features and rules.

OneClick Funded may update these Terms by posting the revised version on the website or dashboard. The updated Terms apply to new purchases and new use after the effective date. For already purchased active accounts, OneClick Funded will normally apply the version and commercial account parameters in effect at purchase unless an update is required for legal, sanctions, AML/CFT, security, platform-integrity, fraud-prevention, third-party provider, technical impossibility or manifest-error reasons.

22. Complaints, Support and Notices

Questions, complaints, payout questions and support requests should be submitted through the official support or contact channels published on the OneClick Funded website or dashboard.

OneClick Funded may require account ID, payment ID, wallet transaction hash, screenshots, platform logs, identity verification or other information to investigate a request.

Before escalating a dispute to a payment provider, bank, public forum, authority or court, you agree to contact support and cooperate in a good-faith investigation, unless mandatory law gives you a non-waivable right to proceed differently.

23. Governing Rules, Disputes and Mandatory Rights

These Terms do not limit any consumer, privacy, payment or other rights that cannot be waived under the laws applicable to you.

The parties will first attempt to resolve disputes through good-faith negotiation for 30 days after written notice submitted through an official channel. If a dispute is not resolved, it will be handled by a competent forum determined under applicable law or any binding dispute process expressly displayed at checkout or agreed separately in writing.

To the fullest extent permitted by law, disputes must be brought on an individual basis only. You waive any right to participate in a class, collective, representative or group action against OneClick Funded, except where such waiver is prohibited by applicable law.

The English version of these Terms controls over translations unless mandatory law requires otherwise.

24. General

These Terms, together with the Privacy Policy and documents incorporated by reference, form the entire agreement between you and OneClick Funded regarding the Services.

If any provision is invalid or unenforceable, the remaining provisions remain in effect. Failure to enforce a provision is not a waiver. You may not assign your rights or obligations without written consent. OneClick Funded may assign or transfer its rights and obligations to an affiliate, successor, acquirer or service provider where reasonably necessary for the Services, subject to mandatory law.

Sections that by their nature should survive termination will survive, including provisions on fees, refunds, prohibited conduct, reward review, intellectual property, data use, disclaimers, liability limits, indemnity, dispute handling and general terms.
